

Second Edition

Greenman and the Magic Forest

Magical adventures
in early learning

CAMBRIDGE

Welcome to Greeman!

It's a beautiful day in the Magic Forest. Three friends are on an adventure, singing songs and learning about the natural world. Let's explore together with Nico, Sam and our guide Greenman, the protector of the forest.

This three-level pre-primary English course **nurtures** children as they **grow** and **learn a new language**, helping to develop **confident social interactions** and a **caring approach to nature**.

Whole-child approach

Help children build positive attitudes and resilience through routines, well-being and self-reflection activities.

Experience nature and learn

Inspire children to appreciate the world around them with cross-curricular lessons and environmental themes.

Find adventure

Take children on a magical adventure through enchanting stories, videos and online games for the classroom and home.

What's the magic in the Second Edition

The things teachers and children love about the series, the whole-child approach, the stories, the characters, the songs and routines are all here.

Now, with exciting new materials and components for teachers, learners and their families too, adding more magic to early learning!

A variety of new digital content to manage every stage of the lesson.

Ideas to help very young learners to experience nature and learn.

Opportunities for families to participate in the children's learning journey.

Guidance on how to support young learners

A design that helps very young learners focus.

**New to Greenman?
Let's explore a unit.**

A variety of digital content to manage every stage of the lesson

It's not easy to keep very young learners engaged all the time.

Add magic and variety to your lessons with the new Digital Packs that help you manage every stage of the lesson. The unique code in the Teacher's Book unlocks these and more!

Great teaching support

Discover classroom resources to display on big screen, including all the teacher and learner components, including audio and video on Presentation Plus.

A variety of videos

Unit opener video

With five videos per unit, you can open and close lessons with a song, introduce topics with videos of children in the real world, practise vocabulary with raps, and relax with yoga videos.

Routine Board: Weather

Yoga video

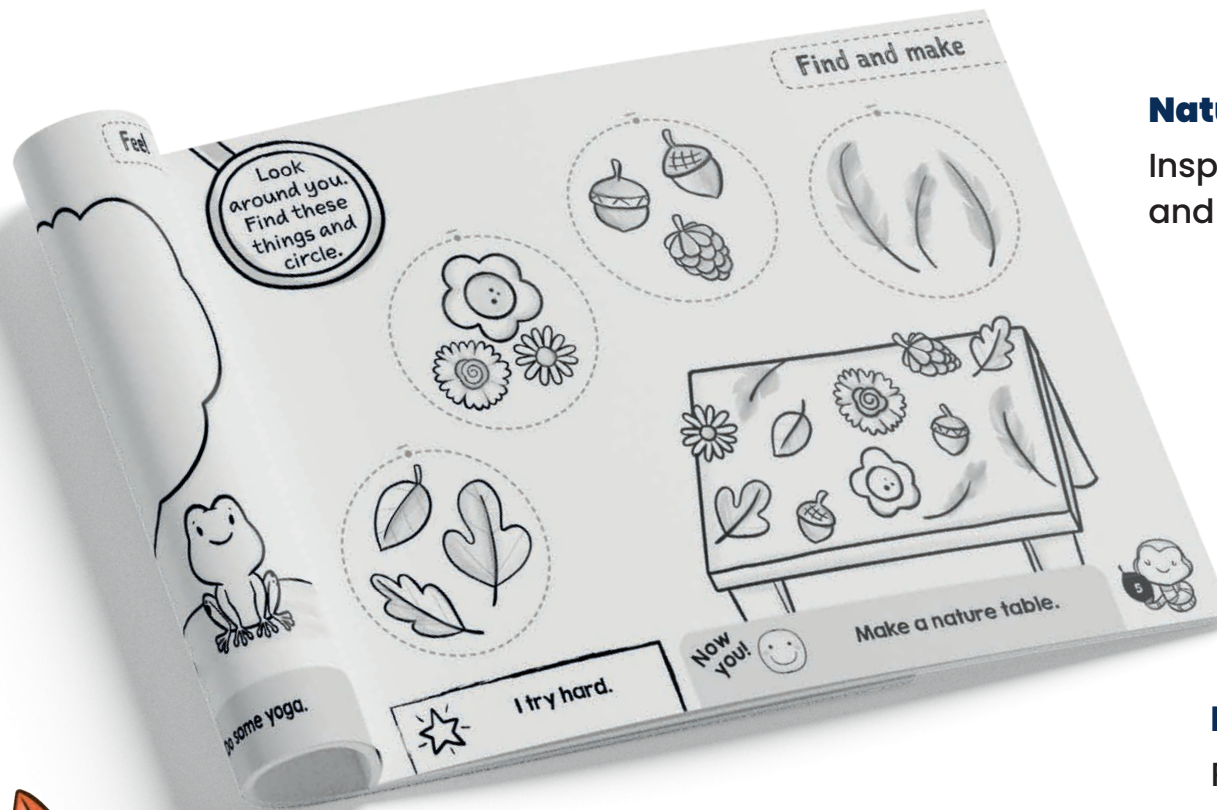

Interactive activities

Practise and reinforce English with dynamic, interactive activities, games, Digital Flashcards and Routine Boards. All the material you need for a successful pre-primary class at your fingertips!

Experience nature and learn

Discover new activities for very young learners to experience nature and learn with the new **Forest Fun Activity Book**. The activities focus on nature and the environment and promote creativity and well-being.

Nature and learning

Inspire children to explore, observe and care for their surroundings.

Projects and crafts

Practise language and concepts with projects and crafts straight from the Forest School.

Well-being

Focus on children's well-being with affirmations, self-reflection and relaxing yoga activities in the **Forest Fun Activity Book**. See their confidence grow with every lesson.

Activity Book page 5 - Find and make

Pupils find natural materials, such as leaves, flowers, seeds and feathers, and bring them to class to make a nature table. Alternatively, bring the materials to class for pupils to find.

Review the word *table*. Use the pictures in the book to describe the different natural materials in English and LI. Pupils find and point to the four different materials on the nature table. They then trace the four circles.

 **Now you!** Tell pupils they are going to make a nature table for their classroom. They add the objects they have collected to make the nature table. You could make this into a nature sensory table, with pupils being allowed to touch and smell the different objects, or hold them to their ears and shake them to see if they make a sound. You could also ask pupils to sort the materials into different groups of objects on the table: leaves, twigs, flowers, seeds, etc.

 **I try hard.** Look at the different objects and ask pupils which were the most difficult to find. Congratulate them for trying hard and collecting all the different things you have asked for. Pupils repeat the affirmation *I try hard* with you.

 Make sure pupils understand they should only collect leaves, pinecones, etc. that have dropped on the ground, rather than picking things from trees.

Teaching support

As you go further into the unit theme, practical teaching notes in the Teacher's Book help you discover more ways to talk with children about nature and caring for the environment.

Promote home learning

Learning is a constant process, both at school and at home. Invite families to participate in children's learning, singing the songs and watching videos from the course at home.

The Greenman videos, songs and games are waiting for children online on Cambridge One. Unlock them with a unique code inside the Pupil's Book.

Home-school connection

Help parents and carers get involved by providing information about the course. The Letters to Parents are in the Teacher Resources on Cambridge One.

The back of the Worksheets includes information for parents and teachers: new language, song lyrics and an extra activity to be done in class or at home.

Motivate and check learners' progress

Explore ways to motivate children and monitor progress with step-by-step guidance and various tools. Find all the teaching resources, including interactive activities with achievement badges in Presentation Plus.

Interactive activities and games

Interactive activities in each unit offer a change of focus and allow children to show you what they can do.

Well done!

Reward children's effort.

Complete the interactive activities and collect rewards. Aim for gold!

Learning support

Support learning with the design that helps children to focus and notice the nature themes in every lesson. There are plenty of pen to paper opportunities to practise fine motor skills too.

Focus

The reference icons help children notice the activities and understand what they need to do, as well as signposting classroom language.

Fine motor skills

Give children a sense of achievement with pen to paper activities that gradually increase in challenge in step with children's fine motor skills development.

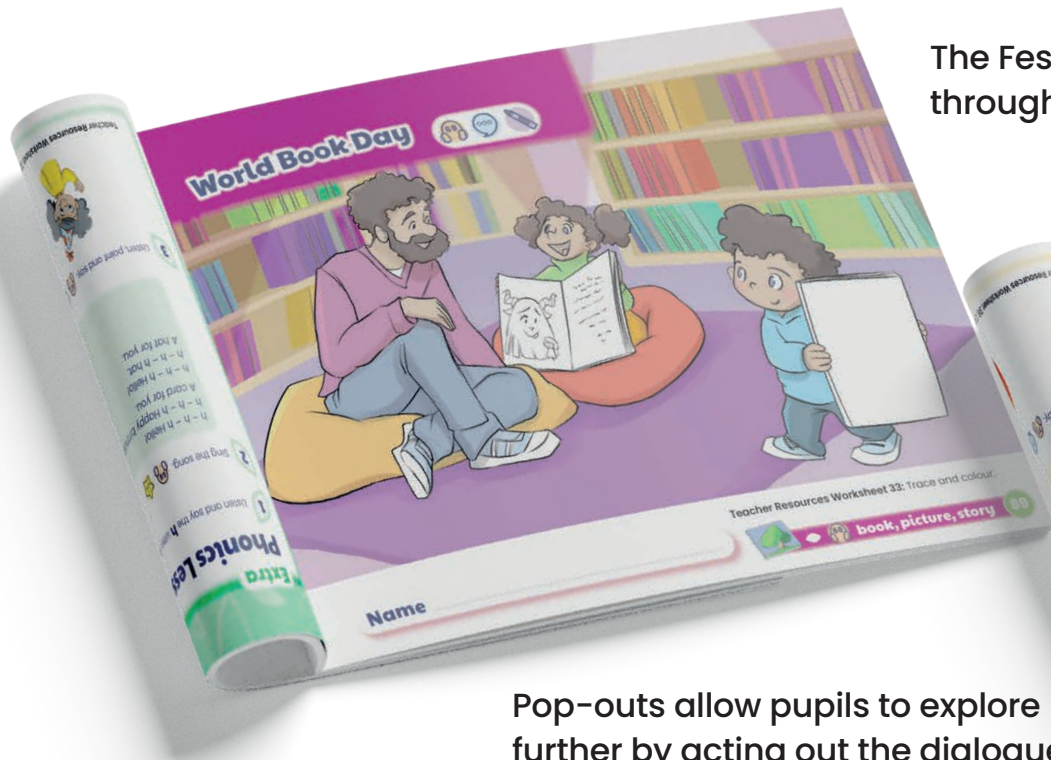

Festival lessons

Four new Festival lessons are included, which allow pupils to explore special days and the ways in which they are celebrated.

These lessons include World Peace Day, World Friendship Day, Green Day, World Book Day, Carnival, Happy Birthday! and others.

The Festivals are presented through a dialogue or a song.

Pop-outs allow pupils to explore further by acting out the dialogue or song.

Pupil's Components

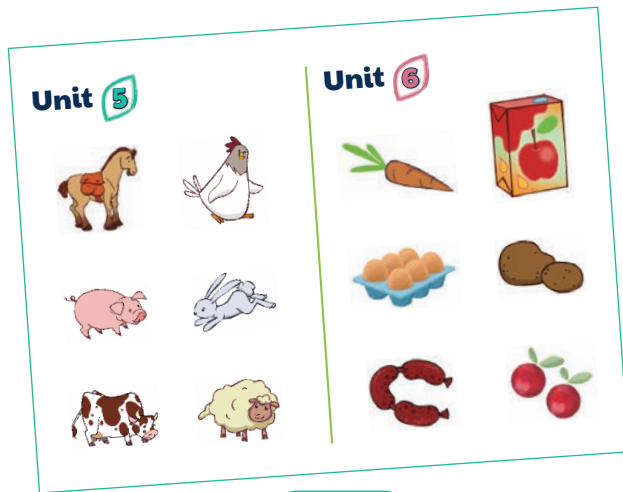

The **Pupil's Book** includes colour pages, as well as stickers and pop-outs. The wide format and spiral binding are easy for young children to manage as they learn to find page numbers, turn pages and complete activities within the book. The book includes tear-off worksheets, so the teacher has the option of sending home individual worksheets as homework.

The new **Forest Fun Activity Book** supports themes from the Pupil's Book, such as caring for and enjoying the environment.

The forest school concept enables teachers and parents to focus on well-being, with yoga-based activities and an emphasis on developing the whole child. The forest setting encourages children to connect with nature and the world around them, providing opportunities to go outside and appreciate their environment.

Stickers

Pop-outs

Pupil's Digital Components

Pupil's Digital Pack

Included with the Pupil's Book is the new innovative **Pupil's Digital Pack**. This provides a home-school connection by giving parents and children access to all the songs and videos from the course, and interactive games to play at home. The Greenman videos, songs and games are waiting for children online on Cambridge One. Unlock them with a unique code inside the Pupil's Book.

Complete the interactive activities and collect rewards. Aim for gold!

Story video

Teacher's Components

Teacher's Book / Guía Didáctica

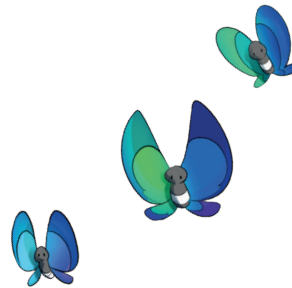

The **Teacher's Book**, in full colour, includes information to help teachers plan and execute lessons. There is a full guide for each lesson, including optional activities and games for extension. The spiral binding makes the Teacher's Book easy to use while planning and teaching.

Big Book

The Big Book, with its full-colour illustrations of fun characters and lively action scenes, is an attractive component for

young children. The Big Book includes six stories, which act as the main focus for each of the six main Pupil's Book units.

Flashcards

Flashcards are ideal for this age group and provide pupils with a visual link to the vocabulary they hear and say in English. There are flashcards for the six new key vocabulary words in each unit.

Puppet

Lovable Greenman is a cuddly **puppet** which pupils will associate with English learning time in school. Since Greenman only speaks English, pupils are encouraged to stretch and improve their language skills, because they will want to make that effort to communicate with him.

Teacher's Digital Components

Teacher's Digital Pack

The brand-new Teacher's Digital Pack is designed specifically for use in the pre-primary classroom:

Some pages of the **Pupil's Book** and **Forest Fun Activity Book** have an answer key, so children can compare the answers they have in their books with an example, encouraging them to start to become independent learners.

Routine Boards

- Presentation Plus** software provides a digital version of each page of the main print components to display in class, and includes embedded audio and video.
- Interactive activities in each unit offer a change of focus and allow children to show you what they can do.

Dynamic, attractive **games** provide a fun way to practise vocabulary.

Digital Flashcards and **Phonics Flashcards**
